

Gillain & Co

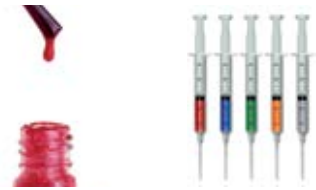

HYGIENIC EQUIPMENT FOR FOOD & LIFE SCIENCES

Corporate Profile Gillain & Co

Mastering Purity

More than a century of experience in high and ultra-high purity industries

Gillain & Co - The Specialist Supplier for Food & Life Sciences Industries

Hygiene - our second nature

Gillain & Co is a specialist supplier of hygienic equipment and components for the food and life sciences industries. Gillain & Co offers safe and certified materials that are essential to these very demanding markets and complex production processes. We always listen to the customers' specific needs. Our expertise enables us to propose winning solutions.

We stay tuned

The secret of Gillain & Co's success lies in continuously monitoring global market developments and latest technologies. We adapt our product assortment if we see that this would be of benefit to our customers. This way our customers receive a greater degree of quality and safety, thus improving their cost efficiency.

135 years of trust and expertise

Over more than a century, Gillain & Co has built a reputation for credibility, trust and expertise in the high and ultra-high purity markets. We are the preferential supplier of an extended number of large food and life sciences companies.

Enhanced product offer

We supply hygienic equipment and stainless steel components that fit each step of your production cycle:

- **Process equipment**
Process components for the treatment of liquids or gases.
- **Flow equipment**
Pipeline components, fittings and tubes for transporting liquids or gases.
- **Pre-engineered solutions**
- **Spare parts**

Industries:

- Chemicals, pharmaceuticals and cosmetics
- Fine chemicals and biotechnology
- Pure gases and micro-electronics
- Food and dairy products
- Breweries and beverage producers

Our customers:

- End-users
- OEM (Original Equipment Manufacturers)
- Piping and Installations Companies
- Engineering Contractors
- Maintenance, Repair and Overhaul Companies

Stainless Steel Tubes and Fittings directly deliverable from stock

High and ultra-high purity industries require absolutely hygienic conditions during the entire production cycle. Tubes, fittings and valves must have a smooth internal surface that is easy to clean and avoids development of bacteria. Gillain & Co offers products that are manufactured, quality controlled, marked and certified according to the highest standards for hygienic design. We guarantee extended quality and traceability. Thanks to our extended stock, we are able to service our customers within 24 hours after ordering. Refer to your Gillain & Co specialist for more information via e-mail advice@gillain.be or telephone +00 32 3 870 60 80

- **Tubes and fittings**
- **Manholes**
- **Sight glasses**
- **Filters and accessories**

Process Equipment: On-Site- Expertise & Outstanding Technology

With Gillain & Co's expertise combined with leading technological solutions from vendors worldwide, customers gain twice.

We Know the Real World

Gillain & Co advisors fully understand fluid handling and are well aware of the daily problems customers have to deal with. They know what happens at the customer's site, just because they go there. Their extended product knowledge and our broad product range ensures you to get the solution that perfectly fits your needs. You can always count on reliable and adequate advice from your Gillain & Co specialist.

A Shared Passion

In order to supply our customers with the best, we only choose to work with suppliers that are as passionate and ambitious as ourselves. Suppliers who have the same will in helping to improve production and safety in the food and life sciences industries.

Gillain & Co

HYGIENIC EQUIPMENT FOR FOOD & LIFE SCIENCES

1. Know-how

Our technical experts support you to make the right choice.

2. Quick deliveries

We permanently hold an extended stock. Standard parts are delivered within 24 hours.

Same day order handling. Thanks to a fully automated warehouse, we are capable of preparing your order immediately.

3. Always the best deal

We like to maintain a long term relation with our customers and therefore will always offer our best prices. Take the test: send your next price request to advice@gillain.be.

4. Top manufacturers

To reach our objective - offering high quality products at the best prices - we only work with manufacturers that specialize in their specific area.

5. Safety

Our products comply with the highest safety and performance requirements.

6. Certificats

We inform you about the various standards and specifications and accordingly produce the certificates for you.

7. Efficient inventory management

Only what you need. We have the space and know-how to take care of your stock on consignment. You only pay for the goods you have consumed.

More service: We manage your stock also if the goods remain in your warehouse.

As long as you wish. Ask for our short- and long-term solutions.

8. Commitment

Safety and responsibility. We are very committed to hygiene and safety. But we are also greatly concerned about the environment. We have installed solar panels on top of our warehouse roof which supply the necessary power to run our company. This makes Gillain & Co a carbon neutral company.
