### Procesoptimization is always key

Our stainless steel- and process experts think along with you about the solution that suits best to your needs. They are trained to propose you products or systems that are cost efficient, consume less energy and assure a safe production process.

### Quality all along the line

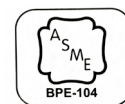

Gillain & Co only sells products that are subject to a very strict quality control at the manufacturer. Upon receipt of a delivery, we perform an additional quality control according to the standards:

- Visual inspection
- Various tests: roughness, chemical composition and dimensions
- Weld inspection

We pay rigorous attention to packing, stocking, handling and transportation of the hygienic components. Your order is handled with the utmost care.

### Direct deliveries from stock

You receive your delivery within 24 hours when ordering before 11 a.m. In case you order "goods-on-demand", we assure a close follow-up and clear communication to ensure that your planning will not be compromised.

# Tubes and fittings in stainless steel, directly from stock

**INOXCO** is the private label of Gillain & Co. **INOXCO** stainless tubes and fittings are produced, controlled, marked and certified according to the highest standards. **INOXCO** is distinguished by an extremely smooth inside surface and offers multiple benefits::

1. Faster cleanability saving time and money
2. Prevention of microorganism development
3. Traceability
4. Better weldability since INOXCO fittings are annealed after forming, resulting in a significant productivity gain for the welder.
5. Roughness of INOXCO-fittings are mentioned on the certificat delivered together with the component

## Tubes and fittings

- Welded hygienic tubes and fittings
- 304L/316L
